

Venn Diagram: Longitudinal vs Transverse Waves

Venn Diagram: Longitudinal vs Transverse Waves (Instructions)

Put these words where they belong on the Venn diagram.

- Always Requires a Medium
- Amplitude
- Compression
- Frequency
- Rarefaction
- Sound Wave
- Movement is perpendicular to direction of wave
- Speed
- Transfer Energy
- Visible Light
- Wavelength
- Amplitude
- Gamma Ray
- P Wave
- Reflection
- S Wave
- Visible Light
- Wavelength
- Movement is parallel to direction of wave
- Period
- BONUS/EXTRA CREDIT: Add 5 words of your own. Make sure they are a different color ink so I can easily see them.
