Lesson Wrap Up: Myths and Stereotypes Regarding Persons Infected with HIV

Part 1: Check for Understanding
Directions: Check your understanding of today’s lesson by answering the following True-False questions.

T     F     Only men who have sex with men get HIV/AIDS.

T     F     Being infected with HIV has no impact on a person’s life.

T     F     Families facing a serious medical problem may need help and support from their friends and neighbors.

Part 2: Family-Home Assignment
Directions: Share/discuss the following with your parent(s) or a trusted adult.
   1. How would they respond if they found out that a friend or family member was infected with HIV?
   2. Share your experience from the guest speaker.

Part 3: Reflections
Directions: In a summary format, address the following questions. (Be sure to use a minimum of 5 complete sentences.)
   1. What did you learn from your parent(s) or trusted adult?
   2. Share your own thoughts about what you learned from the family home assignment (Part 2).
